

VISION & GOALS

Georgetown Bike Master Plan Vision Statement

Georgetown will have a **safe, well-connected** bicycle network that is **accessible** to all ages, abilities, and backgrounds, supports the **local economy**, and promotes a **bicycle friendly culture**.

Georgetown Bike Master Plan Goals & Objectives

Goals	Objectives
Ensure Safety	<ul style="list-style-type: none">• Plan a bicycle network that minimizes conflicts with vehicle traffic while still maintaining connectivity• Design intersections that prioritize protected bicycle and pedestrian crossings• Increase awareness of and respect for cyclists through education and enforcement
Improve Connectivity	<ul style="list-style-type: none">• Build bicycle corridors to connect all neighborhoods with the city center and major destinations• Connect critical nodes with regional trails and bicycle networks• Create North-South & East-West connections
Enhance Equity	<ul style="list-style-type: none">• Improve bicycle and pedestrian access around schools• Promote cycling as an easy, inexpensive way to achieve public health goals• Connect neighborhoods to economic centers and the trail system.• Balance needs & interests of cyclist groups and the public
Support the Economy	<ul style="list-style-type: none">• Re-engineer downtown to accommodate more bicycling• Develop bicycle tourism programs• Ensure that commercial destinations have adequate levels of bicycle parking
Foster Bicycle Friendly Culture	<ul style="list-style-type: none">• Educate residents about proper bicycling behavior for cyclists, drivers and pedestrian.• Develop bicycle friendly codes• Provide a bicycle network map and better wayfinding signage
